## **DETAILED ACTION**

### ***Election/Restrictions***

Newly submitted claims 9-31 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: these claims are directed to tabs in the outer frame as opposed to openings in the outer frame.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 9-31 have been withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

### ***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: Cancel claims 9-31 as claims non-elected by original presentation, as noted above.

***Reasons For Allowance***

Claims 1-8 and 32-37 have been allowed over the prior art.

The following is an examiner's statement of reasons for allowance: prior art could not be located that taught the use of a plurality of stress relief openings in the outer frame portion of a lead frame.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
